在2012年1月7日，台北南天扶輪社與台北市教育局舉辦了兒童電腦繪圖比賽的頒獎典禮，南天扶輪社辦這個活動，今年已是第十屆了(與南天扶輪社同年齡)。我們深信這個活動是有深遠的意義，除了啟發學童的創作能力之外，我們也配合國際扶輪的年度口號為主題。比如說，今年就以”人道關懷 行善天下”為主題，讓參賽者感受並發揮他們的想像力。我們希望藉由這個活動，除了培養學童的創作能力之外，也能讓他們感受到扶輪的精神，將來長大之後也會用愛心來回饋社會，讓世界更安詳、和平。

藉這個機會，我要感謝教育局和博愛國小長年以來對我們的支持與協助，地區總監DG Tommy的蒞臨與頒獎也對大家有很大的鼓舞。

指導老師，評審老師們和參與主辦活動的南天社友都付出了很多時間與精力，才使這個活動辦的如此成功。博愛國小管樂團賣力和精采的演出也令我感動。有了以上這些鼓舞，我相信南天扶輪社每年一定還會持續舉辦這個有意義的活動。

謝謝大家的愛心與參與!!

On January 7th, 2012, the Rotary Club of Taipei South World and the Department of Education, Taipei City Government held the tenth awards ceremony for the Children's Computer Art Competition. This year is also the tenth anniversary of the Rotary Club of Taipei South World. We are convinced that the meaning of this event is profound. In addition to inspiring children's creativity, we also use Rotary's annual slogan as the theme for each event. For example, the event theme this year is "Reach Within to Embrace Humanity", aiming to encourage participants to feel the concept conveyed through the event theme and bring out their imagination. We not only attempt to nurture children's creativity through this event but also make them feel the spirit of Rotary. We expect that they will contribute to society with love when they grow up and make this world more peaceful.

Through this opportunity, I would like to thank the Department of Education and Taipei Bo-Ai Elementary School for their support and assistance. I also thank District Governor DG Tommy; your presence greatly inspires us all.

Supervisors, judges, and all South World Rotarians have spent lots of time and energy on preparation, helping to explain why this event has been so successful. Taipei Bo-Ai Elementary School Symphonic Band's fabulous performance also touched me. As a result of all of these inspiring groups and individuals, Rotary Club of Taipei South World will continue to hold this meaningful event every year.

Thanks for your kindness & participation.

Charter President's Speech

有云 ”十年樹木，百年樹人” 轉眼南天扶輪社舉辦的”兒童電腦繪圖比賽”也到了有樹成陰的階段了，回顧這九年來超過近萬名的國中國小學童包括許多有障礙的小朋友，從四面八方，島內海外都在此時透過網路參加一年一度的兒童電腦繪圖比賽，然後經由專家遴選出60-70件的優勝者，齊聚台北市博愛國小做最後的現場觀摩比賽，當天孩子，父母，指導老師，親友，市府相關主管及民意代表們等都沐浴在南天扶輪社社友及寶眷們持續而用心的社會服務春風裡。

“寓教育於繪圖”是我們創辦”兒童電腦繪圖比賽”的初衷而”播撒愛心的種子”正是我們的目的，藉由未來生活對電腦的需求依賴以及全球競爭的核心，再加科技與藝術的均衡 … 我們深信種子正在不斷地萌芽，成長，茁壯。

第一次來參加比賽的孩子，已經大學畢業或仍繼續進修碩士博士…或已進入社會開始工作服務，當年的”兒童電腦繪圖比賽”還能留下幾許記憶或不能料但對他一生的影響卻仍可期。很令我們感動也鼓舞的是台北市政府，博愛國小以及持續來參加的國中國小師生家長們已然將這項比賽列為年度行事的重要活動盛事之一。

孩子們經由這樣的比賽啟發了純真藝術與尖端科技的聯想，也融洽了現實生活與未來憧憬的步調… 寄語南天扶輪社為”百年樹人”繼續而更努力，也期盼藉拋磚引玉蔚為風潮，讓更多的孩子們分享這份愛心，也讓這個社會因愛心祥和使孩子們在面對未來的世界而更具影響力與競爭力。

As the saying goes, “It takes 10 years to grow trees but 100 years to nurture a generation of good men.” Time flies, and the “Children Computer Art Competition” hosted by the Rotary Club of Taipei South World has reached the stage where all the previous good deeds have seen encouraging results. Looking back at the last nine years, nearly 10,000 elementary and junior high school students, including children with handicaps, have come from every corner of the world to participate in this competition. Now, they take part in this annual competition, and the judges selected 60 to 70 participants for the finals at the Taipei Municipal Bo Ai Elementary School. At the day, children, parents, instructing teachers, families and friends, related government officers and Representatives were all immersed in this carefully conceived social service hosted by the Rotarians and contributing family members.

Education and drawing at the same time is our motive and spreading the seed of love is our purpose. As the future survival of our children relies on computers and competency of global competitiveness as well as the balance between technology and art, we believe that this seed we spread has germinated, grown and flourished.

Children who participated in the 1st competition have grown up to become university students, pursue their Ph.D or started their professional career to contribute to our society. They may not remember the competition, but the impact of their contest will certainly influence them for the rest of their life. What really motivates us are the continuous support by the Taipei City Government and Taipei Municipal Bo Ai Elementary School, and participating teachers and parents already treated this contest as one of the key major events in the year.

Through competitions of this kind, all participants can inspire their innocent, artistic and cutting edge creativity that is identified with a blend of real life and future expectation. We hope that the Rotary Club can continue to work toward the goal of “Nurture a generation of good men,” and this effort can become a trend. So, all children can share our love and benefit from this opportunity to develop their competitiveness and influence the world in the future.

在這邊我想和大家分享我參加扶輪社比賽5年來的過程與經驗，扶輪社辦這場比賽非常有趣也非常具有挑戰性，讓小朋友們感受到贏了初賽之後還要再現場比一場決賽的感覺，真是十分緊張，而且比賽時間只有50分鐘，想必小朋友們一定覺得時間很短，想當年我也是覺得時間非常短暫呢！那我們要如何戰勝時間贏得比賽呢？我分享一項重要的決賽要點，那就是“抓住重點”，那什麼叫“抓住重點”呢？像是有一年我決賽時考題是“元宵節”，一說到元宵節大家就會想到吃湯圓、提燈籠，而我就利用這項特點，直白的畫在畫紙上，這樣既能點題也能在比賽時間內完成較完整的作品。這一年決賽的題目是“正義的天使”，雖然題目比較抽象，每個人一聽到天使便直接的會想到白衣純潔天使，但是我認為天使並不是刻板印象想像出來的那樣，也可以是你的父母、為大眾服務的警察或是慈善的社福團體，這些都可以是正義的天使。

初賽的畫會是評審最主要評斷名次的標準，畫那張畫時不只要注意到抓住要點，也要能有獨特的想法、創意力，才能讓你更脫穎而出！在我六年級那年，題目是“友誼”我不僅畫了兩人和平的牽手，還把牽手更進化，牽出了一個愛心的形狀，這是和別人叫不一樣的想法和想像力，也讓我在那年得到了第一名，非常開心！

我也要謝謝扶輪社能辦這場比賽，讓小朋友們不僅能發揮創意於現在流行的電腦繪圖上，還能關懷世界上弱勢的人們，無論大人、小孩都能展現愛的精神！也希望扶輪社的這項比賽能持續辦下去，使大眾們更關注這些議題！

最後我還要謝謝我的指導老師范中瀚，謝謝他讓我學習到了這些重要的繪圖技巧，並讓我脫穎而出，真是非常感謝喲！

Here, I would like to share with everyone my experiences and tips participating in the competition hosted by the Rotary Club of Taipei South World in the last five years. This Children Computer Art Competition is both interesting and challenging, and everyone wants to proceed to the final after winning the preliminary round. It is really very intense and the length is only 50 minutes. So, you must feel the time passes very fast! I felt the same way before! How exactly can we use our time efficiently to win? Let me share a pointer with you that might send you to the final round – it is focusing on the essence of the topic, but what is focusing on the true essence? For example, one year, the topic of my final round was Lantern Festival. Speaking of this topic, rice balls and lanterns came to mind. So, I used this to my advantage and drew them directly on the canvas. By so doing, I was able to cover the key essences and complete my work within time limit. The topic of the final round this year is Angel of Justice. Although this topic is rather abstract, and everyone would associate that topic with nurse, or an angel in white, as soon as they hear the word angel, I think angel is more than just a nurse. It can be your parents, policemen, or the public servants, or charitable organizations. These can all be the angel of justice.

Your submitted work at the preliminary round will be the means that judges rank you accordingly. So, be sure to cover the true essences and your work can reflect your unique ideas and creativity for you to be selected! In the year when I was a six grader, my topic was friendship. I drew two people holding hands in peace. I pushed this idea to new heights and made it the shape of a heart. This is called different thought and creativity, and I won the first place that year. I was so happy!

I would like to thank the Rotary Club of Taipei South World for hosting this contest. So, all students can not only express their creativity in the popular computer graphics, but also care for the minority group in the world. Both adults and children can all contribute in the spirit of love! I also hope this competition can continue to draw the attention of the public to these issues!

Finally, I would like to thank Mr. Zhonghan Fan, my instructor. Thank him for teaching me all-important graphic techniques, so I can stand out from the crowd. I really appreciate his help!

各位貴賓，各位家長，各位同學大家好：

我是明倫國小六年乙班王子嘉，很高興能參加由南天扶輪社舉辦的第十屆電腦繪圖比賽，這個比賽對我來說別具意義，因為從小學一年級我就開始參加，到現在已經小六了，從來沒缺席過，所以也算是我小學生活的一種紀錄。回想起第一次參加時，我還是一個什麼都不懂的一年級新生，就得到評審的青睞，獲得低年級組的第一名，以後的每年比賽，我從第二名到佳作都有得過，也算是另一種紀錄，直到去年，第一名終於回到我手上，真是開心極了！

我覺得南天扶輪社舉辦的電腦繪圖比賽真的很有意義，讓同學能將自己的想法用電腦以繪畫的方式表現出來，而且每年都能相聚在一起，每次都滿載而歸，所以我要代表所有同學，謝謝南天扶輪社所有社友及辛苦的評審老師！最後，祝各位在今天都有好的成績！

謝謝大家！

Dear honored guests, parents, and fellow participants:

I am Zijia Wang from Grade 6B, Taipei Municipal Minglun Elementary School, and I am very glad to participate in the 10th Children Computer Art Competition hosted by the Rotary Club of Taipei South World. This competition is especially meaningful to me, as I have joined this competition since first grade. Now, I am a Grade 6 student and I have never missed one. So, this is also a memory of my elementary school days. Recalling the first time I joined this competition, I was still a naive first grader. I was so lucky to be favored by the judges and won first place in the lower elementary group. In every contest after that, I have won different ranks from the second place to the excellent work. So, it is also some kind of record. Until last year, I finally won the first place again, and I was so thrilled!

I feel that Children Computer Art Competition hosted by Rotary Club of Taipei South World is truly special, and all participants can express their thoughts through computer graphics. We can gather here together every year and return home loaded with wonderful experiences. So, I would like to speak in behalf of all participants to express our gratitude to all Rotarians and judges! Finally, I hope everybody can get a good grade today!

Thank you!

2D動畫國小組第一名 台中市惠文國小 / 馬如羚 /

初次接觸動畫，是我五年級的時候，我在小玲老師細心的教導下進步神速，曾經代表學校參加多次比賽，幾乎成了比賽常勝軍。

這次很榮幸到台北參加扶輪社舉辦的比賽，初次從台中北上參賽的我，五點多天還沒亮就起床準備搭車，懷著期待又怕受傷害的心情到台北，也是第一次見識到這樣盛大的場面。決賽過程，教室瀰漫著緊張的氣氛，大家都聚精會神安靜地作畫，不浪費任何一分一秒。我把握住短短的半小時，努力地畫出我心目中「正義的天使」。這個題目很好，我們每個人都可以當正義的天使，都有能力幫助身邊需要幫助的人，散播幸福給全世界。

接觸動畫這些日子以來，我發現動畫其實不難，只要構思腳本、畫出角色、有耐心，並且頭腦清楚，就有機會實現自己的創意。這次的機會讓我大開眼界，很開心評審團賞識我的作品，讓我在眾多作品中脫穎而出，我好高興！

感謝老師的栽培，更感謝扶輪社辦這場比賽，讓我有表現的機會，希望扶輪社明年再辦理比賽，我願意不辭辛勞北上參賽，做出最令自己滿意的作品，拿到好成績。

1st place, 2D Animation, Elementary School Group

Taichung Municipal Hui Wen Elementary School / Rulin Ma /

The first time I learned animation, I was a five grader, and I improved a lot under the careful guidance of Ms. Xiaoling. I joined many contests on behalf of my school and almost became a frequent champion.

I am honored to participate in this competition hosted by the Rotary Club in Taipei. Because this is my first time coming to Taipei for the competition, I woke up getting ready for the bus around five when it was still dark. I was both anxious and nervous on my way to Taipei before the competition, and this is also the first time I see a contest this big. During the finals, the classroom was filled with anxiety. Everybody was quietly concentrating on their work and tried to make the best of every minute. I was the same during my 30 minutes at the contest trying to draw the angel of justice I had in my mind. This topic is very good. Each of us can be the angel of justice, has the ability to help everyone in need around us and can spread happiness in the world.

Since I started to learn animation, I found animation is not really that difficult. All we have to do is to conceive stories, draw the characters, be patient and keep our mind sharp, and we stand a great chance to express our creativity. This opportunity has opened my eye, and I am very glad that the judges like my work. So my work can stand out. I am so excited!

I really appreciate the effort of my teacher and the Rotary Club for hosting this competition. So, I have a chance to be the best of myself, and I hope that the Rotary Club can continue this contest next year. I am willing to go through all that trouble coming to Taipei for the contest, create works that I can be proud of and get a good grade.

第十屆參賽 指導老師感言

Speech by Teacher of the 10th Children Computer Art Competition

/ 長安國小 朱韻婷老師 /

今年的扶輪社繪圖比賽的決賽名單中，我所指導的兩個學生，也是自己的女兒，分別獲得中年級組第一、和低年級組第二名，我覺得相當的欣慰，這樣的比賽不僅可以啟發學生無限的創意，更能讓他們獲得更多的肯定與自信。

這是我指導學生參賽以來最好的一次成績，過去幾年在我擔任學校電腦教師期間，每每學校公告扶輪社的電腦繪圖比賽計畫，恰巧都是在期中考前後，學生們常常沒法專心準備初賽，也沒辦法在午休時間到電腦教室上課。而我為了要鼓勵他們踴躍交出作品參賽，不僅要犧牲午休時間讓學生們練習，下課時也得幫學生們檢查作品，然後再一一EMAIL給學生，透過信中指導其作品該修改的地方。因此可以說每一張初賽的作品除了是學生們辛苦的結晶外，也是學校指導老師耐心與毅力的成績單呀。

去年本校的電腦設備提昇很多，尤其是添購了許多的數位彩繪版，讓學生可以在電腦課中，體驗用數位筆作畫的方便性，了解電腦繪圖也可以有豐富的筆觸與自由的作畫模式，讓繪圖及動畫作品更貼近學生的想像空間，也激發出學生更想利用電腦來繪圖的動力，我覺得這是學生能大幅進步的主要原因。

創意與設計的概念是未來的所需，本次電腦繪畫及動畫設計比賽結合創意與電腦科技，比賽不僅可以激發孩子的想像力與創造力，更可是一項結合助人與博愛精神深耕孩子心田的最好機會教育。我很高興參與這樣的盛會，更希望未來有更多的學生來共襄盛舉。

Taipei Municipal Changan Elementary School

In the list of finalists of this art competition organized by the Rotary Club of Taipei South World, both of my students, and also my daughters won first place in the upper elementary group and second place in the lower elementary group. I am very pleased with this result. Competitions like this not only inspire unlimited creativity for students, but they can also obtain approval and become more confident.

This is the best result since I started instructing students for this competition. Over the last few contests when I was a computer teacher, each time the school announced this children computer art competition, it was around the midterm exam time. Students were unable to concentrate on their preparation for the preliminary rounds, nor would they be able to practice at the computer classroom during their lunch break. To encourage them to hand in their work, I had to sacrifice my lunch break for their practice, check their works in breaks between classes and emailed them with my pointers for improvement. Thus, each submitted work of the preliminary round reflects not only students' hard work, but the level of patience and persistence demonstrated by instructing teachers.

Computer hardware was upgraded a lot last year. The newly procured digital painting boards allow students to experience the easiness of painting and understand the rich brush strokes and free drawing style in computer classes. This allows the drawings and animations to realistically reflect the imaginations in the mind of students and encourage students to use computers for their drawings. This, I think, is the major reason that students show great improvement.

Creativity and novel ideas are a must for the future. The computer graphics and animation design contest this time integrated creativity and computer technology. It not only can stimulate imaginations and creativity for children, but also is the best educational opportunity to emphasize on helping other people and rooting charity in the heart of our children. I am honored to participate in this kind of events and hope that more students can participate in the future.

Ruling Ma, a six-grade student in Taichung Municipal Huiwen Elementary School, starts with the image of people hand in hand in this world village. She then narrates the natural disasters that have happened in recent years, such as earthquakes, floods and tornadoes. Through these images, she wishes that everyone can do good deeds through physical efforts or money. She is convinced that love and mutual help among people can create a better and wonderful world.

臺北市私立新民小學國小六年級李芮齊同學，她將每一個人的善行，比喻作一滴一滴的愛心小水滴（送麵包給孤兒院、關懷生病的獨居老人、到偏遠鄉野教小孩讀書..等），然後將每一個小小善行，凝聚而成為大愛，擁有了大愛進而幫助世界上更多的人，充分利用動畫累積性的趣味，表現出愛心的傳遞，由人道的身旁關懷做起，將愛傳出去而達到行善天下！

Ruiqi Li, a six-grade student in Taipei Xinmin Private Elementary School, compares every kind deed (such as sending bread to orphanages, taking care of ill elders who live alone, teaching kids who live in remote towns, and so on) to a heart-shaped water drop. All these small charitable deeds together can have a great power, to help more people in this world. In her delightful animation, Ruiqi Li wants to show that a small kind deed can influence the whole world, so why not just do it!

• 評審的話

臺北市私立新民小學六年級徐向宜，利用日常生活中課堂的情境安排入動畫，以師生的一段有趣對話來安排故事情節，生動幽默的人物表情及誇大的劇情，吸引大家觀賞動畫，因而傳達創作者鼓勵多多行善的巧思，向宜同學並認為：「不一定捐很多錢才算行善，在生活周邊，有很多管道，捐出零錢發票或衣服，當志工等，世界因為有你的付出而更加溫暖。」從小將正確的行善觀念深植心中，未來的世界將更為美好。

• Judge's Comment

Xiangyi Xu, a six-grade student in Taipei Xinmin Private Elementary School, uses the daily classroom as the background of her animation, and the dialogue between teacher and student as the main plot. Vivid and humorous facial expressions and an exaggerated plot attract everyone's attention, which in turn achieve the author's goal of promoting charitable deeds. Moreover, Xiangyi Xu thinks that "Money is not equal to charity. There are still many other ways to do something kind and great, such as donating uniform invoices or clothes, or being a volunteer. Your kind contribution can make this world warmer and better". If the concept of charity can be rooted in people, the world in the future will be even more wonderful.

• 評審的話

興雅國中二年級呂奇典創作的動畫作品，主題是坐而言不如起而行，貫徹將溫暖的愛心傳出去，構圖與動畫使用橫幅移動，美術風格採用線條描繪，在眾多上濃彩的作品之中，反而顯得清新亮眼，故事表達小男孩出門之後以人道關懷，行善天下貫穿整個故事，隱喻身體力行，最終將得善的回報。

• Judge's Comment

The animation work submitted by Qidian Lu, eighth grader at Xingya Junior High School is based on the theme – Actions speak louder than words to thoroughly spread love and warmth. Horizontal movement is adopted in both composition and animation, and line drawings are used as the painting style, which makes the work refreshing and visually distinctive among a list of colorful works. The storyline shows a boy practicing humanized care to spread good deeds after he steps out of the door and shows that actions with good deeds will eventually turn into rewards, tangible or intangible, in our life.

第2名 SECOND PLACE

臺中市平國中三年級 林淑萱 指導老師：胡啟有

• 評審的話

中平國中三級林淑萱的動畫作品意喻深遠，以一顆小水滴激起的漣漪帶出主題，類似輸送帶的方式，流暢的動畫表現，由右至左引入關懷主題，每一幅造型簡潔，提倡人人量力貢獻微薄力量，小小的力量仍有太大的影響力，如滴水穿石的力道，輕輕的撫慰與關懷，深深地感動人心。

• Judge's Comment

The animation work submitted by Shuxuan Lin, ninth grader at Zhongping Junior High School is far reaching and meaningful. It starts off with a ripple created from a small drop to bring out the key theme, and each scene is smoothly connected and rolls from left to right. Only simple yet sharp characters are drawn in the work to promote the idea that efforts by each person, no matter how insignificant they may seem, still carries far-reaching effects. As dripping water can penetrate stone, we should gently comfort and care for everyone to deeply touch our heart.

第3名 THIRD PLACE ●..... 臺北市誠正國中二年級 黃珮瑜 指導老師：陳儀東

• 評審的話

誠正國民中學二年級黃珮瑜的動畫作品感人，一開始使用代表心靈的四格窗戶，鏡頭Zoom in到室內，一隻藍色的小熊背對鏡頭，鏡頭轉至側面，發現其孤寂地落淚，此時，大門一開，代表陽光的金黃色小熊推門而入，伸出友誼的手，一起攜手草原奔馳，好不快樂！

• Judge's Comment

The animation work submitted by Peiyu Huang, eighth grader at Cheng Zheng Junior High School, is very heart-warming. It starts off with a four-partitioned window that symbolizes the heart, and it zooms in to inside the room where a blue stuffed bear is facing opposite a camera. The camera is moved to shoot from the side of the bear, and it cries with tears of loneliness. Suddenly, the door opens and a golden yellow little bear that symbolizes sunshine comes into the room to reach out its hand, and they both hold hands and run in the grassland. How happy is this!

特殊天使組 Angel Group

• 評審的話

天使組的繪畫主題屬自由創作，同學們在主題的發揮上，非常直接且具豐富的童真趣味，完完整整的將他們無瑕的內心，透過電腦繪圖呈現出來。同學們在顏色的設定上鮮明純淨不會有太多的綴飾，高彩度大塊面的呈現，格外顯眼。天使組同學們更厲害的，有別於傳統繪畫直接用彩筆的直覺創作，電腦繪圖必須要熟悉軟體的功能配置，而且以滑鼠做為輸入的媒介，更是必須達到手眼協調的境界才能完成，部分同學的作品有不凡的呈現。電腦繪畫對於天使組的同學們，是另一個能展現自我的方式，透過繪圖軟體的功能可以提高作品的完整度，也可訓練同學的專注力與手眼協調，多所助益。

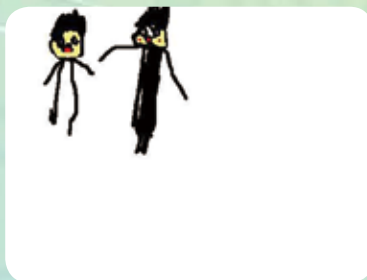

• Judge's Comment

The works submitted by the angel group are created with free thoughts, and their illustrations are direct with rich and innocent appreciation of the world to completely portray their pure inner world through computer graphics. The color choices are simple and without much decorations, and the highly contrasting colors are especially attention-grabbing. Works by the angel group are very impressive. Unlike traditional paintings in which color pans are used for intuitive creation, computer graphics require familiarity with commands of the software application and their combinations as well as coordination between eyes and the hand to control a mouse as the input device, and works by some contestants show their brilliant performance in terms of body coordination. To the contestants from the angel group, computer graphics is a means they can express themselves, and the computer graphic application can also help to complete the works and train their concentration and coordination abilities.
